

The Cockpit Drill – How To Adjust Your Mirrors

NOTE! These images are not of the tuition car and are not an exact replica of what you should expect to see on your lessons. They do, however, show that your view should be mainly behind and around with a small view of the rear of the car to show perspective.

CENTRE MIRROR

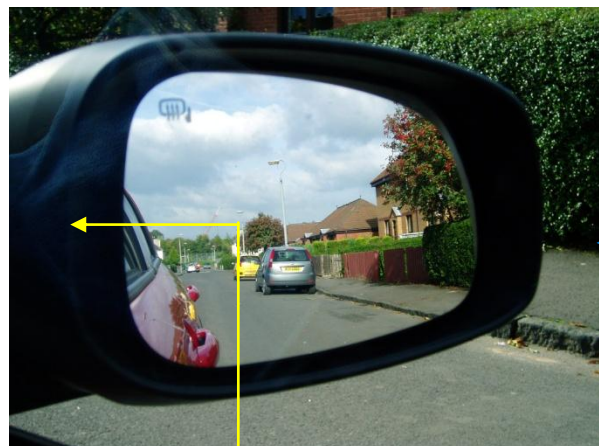

YOU SHOULD SEE THE WHOLE BACK WINDOW FRAMED IN THE CENTRE MIRROR. DEPENDING ON THE SHAPE OF CAR, YOUR VIEW MAY BE SLIGHTLY RESTRICTED BY THE HEAD RESTRAINTS.

LEFT SIDE MIRROR

RIGHT SIDE MIRROR

THE REAR SIDE OF THE CAR SHOULD BE VISIBLE IN THE BOTTOM INSIDE QUARTER OF THE SIDE MIRROR

THE HORIZON SHOULD LIE JUST BELOW THE TOP HALF OF THE VIEW
